In a Press Communiqué which was published by the Government of India in the Finance Department (Central Revenues) on the 22nd May 1931, the conditions governing the relaxation of the Salt Law in favour of residents in villages immediately adjoining areas where salt can be collected or made, were published. It was announced that the concession would be withdrawn from villages where it was found that it was abused and that wherever it was discovered that salt was manufactured or collected in quantities above the requirements of a particular village, abuse of the concession would be presumed. It was further laid down that there should be no sale of salt for purposes of trade outside the villages and that consequently only the removal of salt on foot should be permitted.

2. The concession has already been withdrawn from the Gudur, Sullurpet and Darsi taluks of the Nellore district. It has unfortunately become clear that in many other places in the district the salt concession has been freely abused by the manufacture of salt on an organized scale much in excess of local requirements and the removal of the salt to distant villages for sale. As this constitutes a breach of the agreement, the Collector of Customs and Salt Revenue, Madras, in consultation with the Government of Madras, hereby notifies the withdrawal of the concession, until further notice, in the remaining taluks of the Nellore district, viz., Kandukur, Kavur, Kovali, Nellore, Podili, Venkatagiri, Kanigiri, Udayagiri, Rapur and Atmakur.

F. J. KARAKA,
Officiating Collector of Customs and Salt Revenue.

TENDERS will be received by the Executive Engineer, Guntur Division, at his office at Guntur, up to 4 p.m., on Wednesday, 30th October 1935 for the work of improvements to Verracalva, West Godavari district.

The tender should be in the prescribed form obtainable from the Executive Engineer's office and will be opened by the Executive Engineer, Guntur Division, at his office on 30th October 1935.

2. Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Guntur Division, the name of the tenderer and the name of the work being noted on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3. Each tenderer must pay, as earnest money, a sum of Rupees five hundred only into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned to the credit of Revenue Deposits on behalf of the Executive Engineer of the Guntur Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department Officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date, on the back of all the currency notes given by him, whatever their denominations may be.

The earnest money will be retained in the case of the successful tenderer and will not carry any interest. It will be dealt with as provided in the tender.

4. When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender make a security deposit of Rupees two hundred only in one of the forms prescribed in the Madras Public Works Account Code and sign an agreement in the proper departmental new I.S. contract form for the due fulfilment of the contract. This security deposit together with the earnest money and the amount withheld according to clause 45 of the standard preliminary specification of the Madras Detailed Standard Specifications will be retained as security for the due fulfilment of this contract. If a cash security deposit is made by the contractor he shall follow the procedure laid down in the preceding paragraph for payment of earnest money and such deposit will not bear interest. Failure to enter into the required agreement or to make the security deposit as defined in this paragraph shall entail forfeiture of the earnest money.

5. The tenderer shall examine closely, the Madras Detailed Standard Specifications, and also the Standard Preliminary Specification contained therein, and sign the Divisional Office copy of the Madras Detailed Standard Specifications and its addenda volume in token of such study before submitting his tender unit rates which shall be for finished work in situ. He shall also carefully study the drawings and additional specifications and all the documents which form part of the agreement to be entered into by the accepted tenderer. The Madras Detailed Standard Specifications and other documents connected with the contract such as specifications, plans, descriptive specification sheet regarding materials, etc., can be seen at any time between 11 a.m. and 5 p.m. on office days, in the office of the Executive Engineer, Guntur Division. A copy of the set of contract documents can also be had on payment of Rupees five for each set.

6. The tenderer's attention is directed to the requirements for materials under the clause "Materials and workmanship" in the "Preliminary Specification". Materials conforming to the British Standard Specifications shall be used on the work, and the tenderer shall quote his rates accordingly.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and suitability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specification. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of augmentage, tolls, etc.

8. The tenderer's particular attention is drawn to the sections and clauses in the standard "Preliminary Specification" dealing with—

(1) test, inspection and rejection of defective materials and work;
(2) carriage;
(3) construction plant;
(4) water and lighting;
(5) cleaning up during progress and for delivery;
(6) accidents;
(7) delays; and
(8) particulars of payment.

The contractor should closely perusal all the specification clauses which govern the rates which he is tendering.

9. A schedule of quantities accompanies this tender notice. It shall be definitely understood that the Government does not accept any responsibility for the correctness or completeness of this schedule, and that this schedule is liable to alterations by omissions, deductions, or additions at the discretion of the Executive Engineer, Guntur Division, or as set forth in the conditions of contract. The tenderer will, however, base his lump sum tender on this schedule of quantities. He should quote specific rates for each item in the schedule, and the rates should be in rupees, annas, and in sums of three pies. The rates should be written both in words and figures and the units in words. The tenderer should also show the totals of each item and the grand total of the whole contract, and quote in the tender a lump sum for which he will undertake to do the whole work subject to the conditions of contract. This schedule accompanying the lump-sum tender shall be written legibly and free from erasures, overwritings or conversions of figures. Corrections, where unavoidable, should be made by crossing out, initialling, dating and rewriting.

10. Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. No alteration which is made by the tenderer in the contract form, the conditions of contract, the drawings, specifications, or quantities accompanying same will be recognized, and, if any such alterations are made, the tender will be void.

11. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates or to the Public Works Department estimate rates which are not open for inspection by tenderers.

12. The price at which and the source from which certain particular materials shall be obtained by the contractor are given at the end of the schedule accompanying the tender form. Tenderers shall quote their price for finished work accordingly. No cartage or incidental charges will be borne by Government in connexion with this supply.

13. The attention of the tenderers is directed to the contract requirements as to the time of beginning work, the rate of progress, and the dates for the completion of the whole work and its several parts. The following rate of progress and proportionate value of work done from time to time as will be indicated by the Executive Engineer's certificates of the value of work done, will be required. Date of commencement of this programme will be the date on which the site (or premises) is handed over to the contractor.

Period after date of commencement.	Percentage of work completed (based on contract lump sum amount)
Three months	15 per cent.
Six months	40 ,,
Nine months	60 ,,
Twelve months	80 ,,
Fifteen months	90 ,,
Eighteen months, etc.	100 ,,

14. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on the contractor's behalf.

15. If further necessary information is required, the Executive Engineer of the Division will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

16. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

17. The qualifications of the supervising staff employed by the contractor in the execution of the work will be given due consideration in awarding the contract. The tenderers should therefore state in clear terms whether they employ such technical staff and if so to give the qualifications of such staff and the extent to which they will be employed on the work.

18. No payment will be separately made for baling water from foundation and forming protective bunds, clearing jungle at site and diversion of water courses required during execution. The rates quoted by the tenderer must include the abovementioned charges.

19. The tenderer may however mention an earlier date which fact will be taken into consideration and this earlier date will thereafter be considered as the date fixed for completion of the work.

Bill No. 16 of 1935—Madras Irrigation Cess and Land Encroachment 267

Supplement
Bill No. 14 of 1935—Madras Land Alienation—Telugu, Kanarese, Malayalam and Hindustani.

Bill to be introduced in the Council of the Governor of Fort St. George assembled for the purpose of making Laws and Regulations.

Under rule 18 of the Madras Legislative Council Rules, the following Bill, together with the Statement of Objects and Reasons, is published for general information:—

BILL No. 16 OF 1935.

A Bill further to amend the Madras Irrigation Cess Act, 1865, and the Madras Land Encroachment Act, 1905, for certain purposes.

Madras Act VII of 1865. Madras Act III of 1905.

WHEREAS it is expedient further to amend the Madras Irrigation Cess Act, 1865, and the Madras Land Encroachment Act, 1905, for the purposes hereinafter appearing;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Madras Irrigation Cess and Land Encroachment (Amendment) Act, 1935

Amendment of section 1, Madras Act VII of 1865.

Madras Act VII of 1865.

2. In clause (*b*) of section 1 of the Madras Irrigation Cess Act, 1865, for the words "subject to the control of the Collector, the Board of Revenue and the Government." the words "subject to the control of the Collector and the Board of Revenue" shall be substituted.

Amendment of section 10, Madras Act III of 1905.

3. In section 10 of the Madras Land Encroachment Act, 1905— Madras Act III of 1905.

(i) in sub-section (1), the words " or the Local Government " shall be omitted; and

(ii) in sub-section (2), for the words " the District Collector, the Board of Revenue or the Local Government," the words " the District Collector or the Board of Revenue " shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

In 1931, the Retrenchment Committee expressed the view that there were possibilities of delegating to the Board of Revenue some of the work done in the Revenue Secretariat. The question was examined, and certain powers exercised by the Government were delegated to the Board of Revenue in 1932. The question has been further examined, and this Bill is one of the results of such examination.

2. Under clause (b) of section 1 of the Madras Irrigation Cess Act, 1865, on the question whether irrigation coming under the clause is beneficial to and sufficient for the requirements of the crop on the land, the decision of the Revenue Officer, empowered to charge water-cess, is subject to the control of the Collector, of the Board of Revenue and of the Government. The Revenue Officer empowered to charge water cess is usually the Deputy Tahsildar or the Tahsildar. Between him and the Government, there are at least three authorities who have power to revise his order—namely, the Revenue Divisional Officer, the Collector and the Board of Revenue. The question whether irrigation to which clause (b) of section 1 of the Act would otherwise apply, is beneficial to, and sufficient for the requirements of, the crop, is a question of pure fact, which arises in the ordinary day-to-day revenue administration of the Presidency. Similarly, matters connected with the Madras Land Encroachment Act, 1905, form part of the ordinary revenue administration. The proper authority to decide finally such matters of detail which arise in the course of the ordinary revenue administration should be the Board of Revenue. It is accordingly proposed to omit the reference to Government appearing in clause (b) of section 1 of the Madras Irrigation Cess Act, 1865, and in section 10 of the Madras Land Encroachment Act, 1905.

30th August 1935. C. A. SOUTER.

Secretary to Government, Law (Legislative) Dept.
